# SECURITY INNOVATION
A BUREAU VERITAS COMPANY

SaaS CLOUD SECURITY CONSULTING SERVICES

EMPOWERING SECURE SaaS DEVELOPMENT AND OPERATIONS

Your SaaS solution needs more than just basic cloud security—it requires tailored protection for the entire cloud infrastructure and application lifecycle. Security Innovation specializes in securing large, complex SaaS solutions by providing comprehensive security consulting for every aspect of your cloud environment. From application development processes to code reviews and deployment, we ensure your cloud infrastructure is fully protected, scalable, and compliant with industry standards.

SECURING SaaS SOLUTIONS IN THE CLOUD

Security Innovation provides specialized security consulting to large, complex SaaS providers, focusing on securing all aspects of the cloud infrastructure that underpins their solutions. From securing the processes used to build and scale applications, to performing rigorous code and design reviews, and safeguarding the deployment of cloud environments, we deliver tailored solutions that meet the unique security challenges of SaaS providers.

BENEFITS

PROACTIVE RISK MANAGEMENT FOR SaaS APPLICATION CLOUD SECURITY

Our team ensures the security of your SaaS infrastructure from end to end. We safeguard cloud environments with rigorous application security measures like code and design reviews, misconfiguration management, and deployment security, providing a robust defense against breaches and other vulnerabilities.

- **Secure cloud infrastructure from misconfigurations**
- **Safeguard applications with continuous code and design reviews**
- **Ensure seamless, secure deployment of cloud-based SaaS solutions**

TAILORED COMPLIANCE AND DATA PRIVACY SOLUTIONS

Meet regulatory demands with confidence. We help SaaS providers navigate the complex requirements of data privacy and compliance with services that include data encryption, identity access management, and audit readiness, ensuring that your cloud environments meet GDPR, HIPAA, and SOC 2 standards where they apply.

- **Navigate complex compliance landscapes**
- **Protect sensitive customer data with advanced encryption**
- **Ensure audit readiness and adherence to industry regulation**s

PROACTIVE RISK MANAGEMENT FOR SaaS APPLICATION CLOUD SECURITY

As your SaaS solution grows, so does the need for scalable security. Our solutions adapt to dynamic, multi-tenant environments, ensuring tenant isolation, secure identity management, and continuous protection even as your workloads expand.

- **Ensure tenant isolation and secure multi-tenant environments**
- **Scale security to meet the demands of your growing SaaS business**
- **Maintain performance and security under the shared responsibility model**

WHY SECURITY INNOVATION

○ **Expertise in SaaS Cloud Security:** With over two decades of experience in cybersecurity, Security Innovation is a trusted partner for SaaS providers seeking to secure every aspect of their cloud infrastructure and applications.

○ **Comprehensive Solutions:** From initial architecture and application reviews to cloud deployment and ongoing security assessments, we provide tailored solutions that meet the unique security needs of SaaS providers.

○ **Proven Track Record:** Security Innovation's security consulting services have helped numerous SaaS providers protect their cloud environments, achieve compliance, and maintain secure, scalable infrastructures.

HOW WE HELP SaaS PROVIDERS LIKE YOU

CLOUD INFRASTRUCTURE SECURITY

We secure your cloud infrastructure by identifying and resolving misconfigurations, ensuring that your environment is safe from common vulnerabilities.

APPLICATION SECURITY REVIEWS

Our experts conduct in-depth code and design reviews to protect your applications from security risks during development.

COMPLIANCE AND AUDIT SUPPORT

We help you meet industry regulations with tailored compliance solutions and ongoing support for audit readiness.

MULTI-TENANT SECURITY

We ensure that your SaaS environment is properly isolated and protected, even as it scales to serve multiple tenants securely.

ABOUT SECURITY INNOVATION

Security Innovation is a leader in software security, providing comprehensive solutions to secure software from design to deployment, across all environments, including Web, Cloud, IoT, mobile, and desktop. With a commitment to delivering precise and actionable security with zero false positives, we empower organizations to protect their products confidently and efficiently. Leveraging decades of expertise and as part of Bureau Veritas, a global leader in Testing, Inspection, and Certification, we seamlessly integrate world-class security into development processes, safeguarding the way companies build and deliver products.
